Executive Summary

The annual budget is a critical component of effective financial planning and resource management. The purpose of a municipal budget is to outline the Township's financial plan for managing and allocating resources to meet the needs and priorities of the community.

The following 2025 budget is comprised of both operating and capital budgets.

The operating budget outlines the day-to-day expenditures required to deliver services such as infrastructure maintenance, recreation and administrative support. It reflects the commitment to provide high quality services while remaining fiscally responsible. The operating budget is a statement of the municipality's priorities and legislative responsibilities, as decided by Council, and sets limits on spending for the programs and services the municipality offers, and revenue targets for fees and other monies collected by the Township.

The capital budget focuses on longer-term investments in infrastructure, facilities and major projects. The purpose of the capital budget is to acquire, replace, and maintain capital assets and support the services provided by the Municipality. The capital assets of the Township are essentially owned by the residents. Staff, through Council's direction, are the stewards of the assets, charged with ensuring they are managed properly.

2025 Budget Overview

Formulating the municipal budget involves reviewing all plans approved by Council, which include, but are not limited to the Strategic Plan, Long Term Financial Plan, the 10-year Capital Plan, and any approved Master Plans. Staff also consider provincial legislation, such as the Municipal Act, Building Code, Planning Act, Minimum Maintenance Standards, and various Ontario regulations.

The 2025 Operating and Capital Budgets for each department are presented in this document for Council consideration. In the preparation of the 2025 budget, staff have analyzed expenditure trends, referenced various Council approved plans, and consulted with all levels of staff. Staff have considered the current economic state, interest rates, annual debt limits, union agreements, approved contracts and committed projects.

The 2025 budget aims to maintain the Township of North Glengarry's service levels and make strategic investments in infrastructure. The following 2025 budget currently results in a tax levy increase of \$295,056 or 3.96%.

This increase includes an adjustment in assessment equaling \$23,944 of taxation revenue which is due to minor changes in assessment. Property value assessments continue to remain unchanged from the 2016 values. This freeze has significantly affected revenue generation for the Township as the historical phased-in growth revenue averaged over \$200,000 per year. At this time, there is no date for phased-in reassessment to resume.

It is assumed that education rates will remain unchanged for 2025, causing no change to this portion of the tax rate. County tax rates for 2025 have not been set however, they have approved a 6.87% increase on their budget which is estimated to result in a 5% increase to tax rates.

The fees and charges by-law and schedule have been reviewed and will be brought to Council for approval at a future Council meeting. Any increase in revenue due to the increase in rates and fees has been included in the budget. A 2% increase in both water and wastewater rates have been included in the budget.

Key Changes

Overall, the presented budget includes a net change to the tax levy of \$295,056. The key changes, including their impact on the budget, are included in the following table.

2025 Key Budget Changes

Change	Value
Increase in OMPF	-\$245,300.00
Increase in interest revenue	-\$100,000.00
Increase in OCIF	-\$97,004.00
Net decrease from closure of R.A.R.E.	-\$43,250.00
Change in Assessment	-\$23,944.00
Decrease in Building Revenue	\$6,000.00
Increase in Winter Maintenance	\$6,000.00
Increase in signage requirement	\$6,000.00
Decrease in revenue from tax certificates	\$9,500.00
Increase in insurance	\$15,000.00
Increase in line painting	\$15,000.00
Increase from addition of new Public Works Building	\$23,525.00
Other Adjustments	\$25,246.00
Increase in computer fees	\$30,000.00
Decrease in PIL Revenue to align with actuals	\$92,083.00
Increase in LTD payments	\$99,200.00
Increase in capital spending	\$217,000.00
Adjustments to salaries and benefits	\$250,000.00
Portable stage	\$10,000.00
Total Changes to the Tax Levy	\$295,056.00

Assessment Data

There are many components to the property tax system, including: assessment value, tax ratios, tax rates, capping, and the required tax levy amount.

The Current Value Assessment (CVA), better known as assessment, of each property in the Township is set by the Municipal Property Assessment Corporation (MPAC). All properties are assessed by MPAC every four years. Any increases to property values are phased in over four years, with any reductions being given in the first year. The 2016 taxation year was the first year of the new assessment cycle; therefore, 2020 would have been the fourth year of the assessment cycle.

In normal assessment cycles, 2020 would be the base year for phased in values for the years 2023-2025. However, assessment changes have been paused since 2020 and will remain the same for 2025. This means that property taxes will continue to be based on the January 1, 2016, assessment date. This freeze will decrease the additional tax dollars that the Municipality usually gets from annual assessment changes.

A summary of the 2025 assessment is noted below:

2025 Projected Assessment Change

Property Class	2024 Total Assessment	2025 Total Assessment	Total Assessment (%) Changes	Total Assessment (\$) Changes	Variance (%)	2024 Municipal Rates	2024 Municipal Taxation	2025 Municipal Taxation	Additional Dollars
Residential	\$868,775,526	\$879,752,326	1.26%	\$10,976,800	1.26%	0.0056445	\$4,903,806	\$4,965,764	\$61,959
Commercial	\$95,392,292	\$91,228,392	-4.37%	-\$4,163,900	-4.37%	0.0092233	\$879,829	\$841,424	-\$38,405
Farmland	\$515,085,512	\$518,040,212	0.57%	\$2,954,700	0.57%	0.0014111	\$726,850	\$731,020	\$4,169
Industrial	\$19,589,500	\$18,650,100	-4.80%	-\$939,400	-4.80%	0.0116471	\$228,160	\$217,219	-\$10,941
Managed Forests	\$7,151,800	\$7,456,500	4.26%	\$304,700	4.26%	0.0014111	\$10,092	\$10,522	\$430
Multi-Residential	\$13,331,900	\$13,390,400	0.44%	\$58,500	0.44%	0.0056445	\$75,252	\$75,582	\$330
Pipeline	\$5,124,000	\$5,109,000	-0.29%	-\$15,000	-0.29%	0.0077209	\$39,562	\$39,446	-\$116
Aggregate Extraction	\$0	\$559,600	N/A	\$559,600	N/A	0.0116471	\$0	\$6,518	\$6,518
Total	\$1,524,450,530	\$1,534,186,530		\$9,736,000			\$6,863,551	\$6,887,495	\$23,944

Aggregate Extraction Class

A new property class “Aggregate Extraction” was created in 2025. It was introduced to allow municipalities the authority to levy taxes specifically on aggregate production properties such as quarries and gravel pits. It is not yet known whether the province will impose a reduced industrial tax ratio for this property class. The current budget reflects this property class as full industrial. Any reductions to this tax ratio will result in an increased residential tax rate.

Payments in Lieu of Taxes (PIL)

Properties owned by the provincial and federal government are not subject to regular property taxation, however, these properties pay the municipality in the form of Payments in Lieu of Taxes (PIL). The revenues received from these government agencies are based on the same premises as the property taxation calculations, however, the revenues collected are accounted for in the general administration budget.

Tax Rate

The total tax rate is made up of three components: the Municipal Tax Rate, set by the Township, the County Tax Rate, set by the United Counties of Stormont, Dundas, and Glengarry; and the Education Rate set by the province.

There are two components of the tax rate calculation:

- How much does the Township need to collect from residents to cover the net tax levy (the net tax levy is the revenue of the Township minus the expenditures)
- What is the total of all property values in the Township?

$$\text{Total Budgeted Net Tax Levy} = \frac{\text{Township Tax Rate}}{\text{Weighted Assessment}}$$

The weighted assessment is calculated by multiplying the tax ratio, which is set by the County, by the assessment from MPAC. Each property type has a different tax ratio. In North Glengarry, the residential ratio is 1.00, farmland is 0.25, commercial is 1.63, and industrial is 2.06.

To calculate the taxes owing, the tax rate is multiplied by the assessment of the property. The education portion is sent to the school boards directly, and the County invoices the Township for their portion. The municipal tax rate represents approximately 40% of the total tax rate.

Key Assumptions and Rationale

Salaries

A large portion of the budgeted salaries are impacted by the collective agreements for each of the three unions. The unionized salaries in each of the departmental budgets have been adjusted per their respective collective agreements.

As part of the annual budget process, a comprehensive review of non-union employee salaries was conducted. This included a comparison to compensation levels in comparable

municipalities. This analysis aimed to ensure that salaries remained competitive and aligned with similar positions and allows the Township to continue to retain and attract skilled staff. Recommended changes from this review have been included in the budget.

Staffing level changes and salary step increases also impacted the overall salary and benefit budget. Furthermore, the minimum wage was raised to \$17.20 per hour in October 2024, with an additional increase anticipated in 2025.

All of the above changes resulted in an overall net increase of 1.80% to the overall salary budget.

Statutory and Non-Statutory Benefits

Workers Compensation Insurance Board (WSIB)

The Workers Compensation Insurance Board (WSIB) announced that the average premium rate will decrease from \$3.42 per \$100.00 of insurable payroll to \$3.25 per \$100.00 of insurable payroll. This will bring the average premium rate to the lowest it has been in the last 50 years.

Canada Pension Plan (CPP)

The Canada Pension Plan (CPP) contribution rates remain constant from 2024 to 2025 at 5.95%. Maximum annual pensionable earnings have increased from \$68,500 to \$71,300. In 2024, a second additional CPP contribution (CPP2) was introduced. The contribution rate for CPP2 has also remained constant for 2025 at 4%. The additional maximum pensionable earnings have increased from \$73,200 to \$81,200.

Employment Insurance (EI)

Employment Insurance (EI) premium rates will decrease from \$1.66 per \$100 insurable earnings to \$1.64 for 2025. The maximum insurable earnings increased from \$63,200 to \$65,700.

Ontario Municipal Employees Retirement System (OMERS)

Contribution rates for the Ontario Municipal Employees Retirement System (OMERS) will remain unchanged from 2024.

Employee Benefits

The Township participates in a County-wide plan for employee group benefits. Life insurance and long-term disability are held with Manulife, and accidental death and dismemberment (AD&D) are held with AIG. Health and dental benefits are managed through GreenShield. Renewal rates are based on 50% County-Wide experience and 50% Township claims

experience. Rates for Dental and Extended Health benefits are based on current year experience. The increase for 2025 has not yet been established, however the predicted increase to rates has been included in the operating budget as presented.

Insurance

The Township's insurance rates are based on experience and the market. The 2025 budget includes the updated annual premium. The total annual premium amount increased by 4% with no increase to the Cyber Security premium. The insurance costs were redistributed throughout the budget to reflect a more accurate distribution.

Federal and Provincial Funding

The Township of North Glengarry receives funding from the federal and provincial governments through the Ontario Municipal Partnership Fund (OMPF), the Ontario Community Infrastructure Fund (OCIF) and the Canada Community Building Fund (CCBF).

The Township also applies for additional grants from both the federal and provincial governments that are taken into account when creating the annual budget.

Ontario Municipal Partnership Fund (OMPF)

The Ontario Municipal Partnership Fund (OMPF) continues to be the Province's main transfer payment to municipalities. In 2014, the OMPF was redesigned following consultations with municipalities across Ontario. Consultation with municipalities and the Association of Municipalities of Ontario (AMO) have continued over the past year and have focused on refining the program to ensure it meets the long-term priorities of municipalities.

In 2025, the allotment is set to increase by \$245,300.

Ontario Community Infrastructure Fund (OCIF)

The province provides funding to small, rural and northern communities under this fund. It is formula based and uses census data to determine the amount of the grant. This funding can be used to help fund capital expenditures on infrastructure projects such as roads, bridges, water and wastewater.

The 2025 allocation for the Township is just over \$743,000; an increase of just over \$97,000 compared to 2024. The 2025 OCIF allocation has been allotted to funding capital projects for Public Works.

Canada Community Building Fund (CCBF)

This fund was previously known as the Federal Gas Tax Fund. The 2025 allotment has been confirmed at \$331,399. This is a permanent source of funding that is provided up front twice a year to support local infrastructure priorities.

Communities select how to best use the funds amongst the following categories applicable to the Township:

- Wastewater infrastructure
- Drinking water
- Solid waste management
- Local roads and bridges
- Recreation
- Firehalls

The 2025 CCBF allotment, as well as unspent dollars from previous years, has been allotted to the 2025 Bridge Capital Budget.

Reserves and Long-Term Debt

Reserves

The 2025 reserve schedule is presented below for reference. Unspent 2024 capital budget items are identified in the "2024 Carry Forward" column in the amount of \$826,347.19 in the schedule below. These items are then included in the 2025 budget as transfers from reserves.

Reserve Name	Account	2023 Ending Balance	2024 Transfers In	2024 Transfers Out	2024 Carry Forward	2024 Consolidated Totals In/Out	2024 Tentative Ending Balance

A report will be brought to Council in 2025 to finalize transfer to and from reserves for 2024.

Long-Term Debt

The 2025 Long Term Debt schedule is included below for consideration. The Township of North Glengarry currently has debt funded through Infrastructure Ontario and the Royal Bank of Canada. The total debt proposed for the start of 2025 is \$9.57M. Of this amount, \$6.06M is funded through the water/wastewater rates, with the remaining \$3.5M of debt on the tax base.

**Long Term Debt
Estimation for the Year 2025**

Department	Description	Loan Amount	Date of Loan	Term	Interest Rate	2025 Annual Payment	Balance at January 1, 2025
Fire Department	SCBA Equipment	\$272,255.00	September 16, 2015	10 years	1.86%	\$12,978.71	\$12,978.71

Community Services	Ice Resurfacer	\$175,000.00	February 2025	10 Years	6.00%	\$19,363.90	N/A
Fire Department	Fire Truck	\$160,000.00	August 2025	10 Years	6.00%	\$7,081.68	N/A
Total		\$12,748,185.00				\$890,923.07	\$9,573,469.73

The 2024 Annual Repayment Limit for the Township has also been considered. This document is provided by the province annually and represents the repayment limit as calculated based on data from the Financial Information Return. The details are included for reference; however, the main number is the annual repayment limit of \$2,136,149. This number can be calculated into the total allowable debt of the Township, based on various interest rates and terms. These numbers, as shown in the schedule, included the current debt of the municipality. As such, the Township, regardless of the large debt for the Maxville Water Project, has sufficient debt capacity left.

2024 ANNUAL REPAYMENT LIMIT

(UNDER ONTARIO REGULATION 403 / 02)

MMAH CODE:	71615
MUNID:	01047
MUNICIPALITY:	North Glengarry Tp
UPPER TIER:	Stormont, Dundas and Glengarry UCo
REPAYMENT LIMIT:	\$ 2,136,149

FOR ILLUSTRATION PURPOSES ONLY,

The additional long-term borrowing which a municipality could undertake over a 5-year, a 10-year, a 15-year and a 20-year period is shown.

If the municipalities could borrow at 5% or 7% annually, the annual repayment limits shown above would allow it to undertake additional long-term borrowing as follows:

5% Interest Rate		
(a)	20 years @ 5% p.a.	\$ 26,621,141
(a)	15 years @ 5% p.a.	\$ 22,172,499
(a)	10 years @ 5% p.a.	\$ 16,494,778
(a)	05 years @ 5% p.a.	\$ 9,248,408
7% Interest Rate		
(a)	20 years @ 7% p.a.	\$ 22,630,396
(a)	15 years @ 7% p.a.	\$ 19,455,864
(a)	10 years @ 7% p.a.	\$ 15,003,418
(a)	05 years @ 7% p.a.	\$ 8,758,634

DETERMINATION OF ANNUAL DEBT REPAYMENT LIMIT

Change	3.96%

Department Budgets

Council

Departmental Overview

The Council of the Township of North Glengarry has a stewardship role. Council is responsible for providing leadership, policy development and strategic direction for the municipality. The Township of North Glengarry is represented by one Mayor, one Deputy Mayor, one Councillor at Large and four ward Councillors.

2025 Budget Initiatives and Challenges

The Council budget has been updated to reflect the forecasted actuals for conferences and workshop expenses. Salaries and benefits were adjusted based on a cost-of-living increase.

Administration and Finance

Departmental Overview

The Administration Department includes the Office of the Chief Administrative Officer (CAO), the Clerk's Department, the Finance Department, and Information Technology services (IT).

The Office of the CAO is responsible for the effective administration of all Township activities. The CAO provides leadership and is responsible for the coordination of information with all departments while ensuring that the policies of the municipality are followed. The CAO is also responsible for Human Resources (HR) with respect to recruitment and ensuring the Township follows policies and HR legislation. The CAO liaises with boards, agencies, other municipalities, and provincial and federal governments. The CAO is responsible for assisting Council with strategic planning, contracts, development charges, leases and is a member of the Emergency Control Group.

The Clerk's Department, as a function of the CAO along with the assistance of the Deputy Clerk, is responsible for legislative guidelines to Council, in all matters pertaining to the conducting of Council and committee meetings. The Clerk's Department is also responsible for all Township records, including agendas, minutes, by-laws, policies, and agreements. The Clerk's Department handles death/marriage registrations, fence viewing, livestock

valuations and is responsible for drafting bylaws. The Clerk, alongside the Treasurer and Deputy Clerk are Commissioners of Oaths due to the office they hold.

The Finance Department is responsible for the administration and maintenance of all financial resources of the municipality to ensure its operations are sustainable and efficient.

Duties of the Finance Department include:

- Budgeting
- Accounts Payable
- Accounts Receivable
- Property Taxes
- Utility Billing
- Payroll
- Asset Management

The IT Department is responsible for the support and maintenance of systems for users (hardware, software, networks). The Department also manages the internet, Wi-Fi, security, cell phones and the telephone system.

The Other Services budget contains crossing guard services, ambulance costs, transfers of funds to Conservation Authorities, and livestock grants and evaluations.

2024 Accomplishments

The Administration Department has focused on streamlining operations and enhancing efficiency. A key accomplishment in 2024 was the successful transition to a digital filing system, reducing reliance on paper records and improving document accessibility. The department was also able to scan and digitize older records, which has improved record keeping.

The Office of the CAO chairs a Health and Wellness Team for the Township which provides information, activities and recognition of employees. Staff participated in many events this year, including a County wide baseball tournament, a staff barbecue and the annual Christmas Party.

2025 Goals

The Administration Departments will continue to focus on creating and updating policies and procedures to provide clear guidance to staff. Specific policies to be reviewed and updated include the Workplace Violence and Harassment Policy, Personnel Policy, Code of Conduct Policy, Debt Management Policy, IT Policy and Reserve Policy.

The Finance Department will focus on the implementation of a new payroll system. This system will allow for more automation in the payroll process, which will reduce the administrative workload and allow for more time to be spent on other projects. The system will allow staff to access records, pay stubs, and tax forms. Improved record keeping for employees will also be included in this implementation.

With the addition of new staff, the Finance Department will also focus heavily on cross training. This will allow employees to develop new skills, encourage teamwork and ensure smoother operations during planned and unplanned absences and unexpected workload spikes.

2025 Budget Initiatives and Challenges

An increase of \$245,300 to OMPF has been updated and reflected in the Administration budget.

The amount of revenue for each Payment in Lieu was reviewed and adjustments were made based on any new valuation and to reflect only the Township's portion. Similarly to property taxes, the Township must remit a portion of the PILs collected to the United Counties of SD&G and the Education boards. Although PILs are calculated and sent out for collection, payment is at the discretion of the provincial and federal government and may not meet what is billed.

Due to the change to the Communications Officer role, a portion of the Economic Development budget for advertisement and publicity and promotion was broken out. Additionally, funds allocated to advertisement for each department were pooled under one budget line. This will allow departments to work alongside the Communications Officer to ensure strong advertisements and communications reach the community.

Building, By-Law and Planning

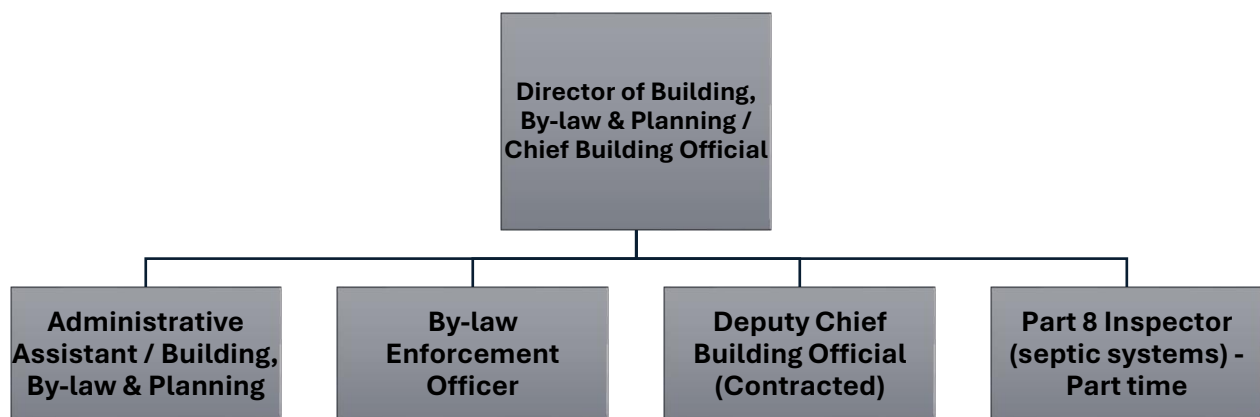

Departmental Overview

The Township's Building Department authorizes all building construction and demolition in North Glengarry. The Department is provincially mandated to administer and enforce the Ontario Building Code (OBC), and provincial legislation requires staff to maintain certification to meet provincial standards, perform mandatory inspections, and issue permits within mandated time frames. The Township's Building Department provides the following public services associated with the administration and enforcement of the OBC; pre-permit consultation, plans examination, technical reviews and application processing, issuing of permits within mandated time frames to ensure conformity to the OBC, on-site inspections to ensure conformity with approved permit drawings, specifications, the OBC Act and regulations, response to all technical inquiries throughout building projects, provision of enforcement and initiation of legal proceedings as required, etc. The Building Department also administers and enforces other municipal By-laws such as the Property Standards By-Law, the Pool By-law, the shipping container By-law, the Sign By-law, and the Outdoor Appliance By-law. The Department is also responsible for assigning urban Civic addresses and rural Emergency 911 civic numbers, and to co-ordinate for the issuance of permits and inspection of all sewage systems.

The Township's By-law Enforcement Department creates safe, clean, and vibrant communities throughout the Township of North Glengarry. The purpose of the By-law Department is to assist with providing public safety, maintaining community standards dealing with the Township's nuisance issues. The most common problems the department deals with are animal control, parking, clean yards, property standards and noise infractions. By-law enforcement officers for the department respond to requests for service and inquiries on private property related to business licensing, lot maintenance, noise and nuisances, property standards, zoning bylaw regulations, etc. The By-law Department is responsible for the enforcement of the Yard Maintenance By-Law, the By-law for the licensing, regulating, and keeping of dogs, the Animal at Large By-law, the Nuisance By-law, the Parking, and the Property Standards By-law. The department responds to issues on a complaint basis except for parking, which is patrolled on a needed basis. At times enforcement and prosecution are required.

The Township's Planning Department is responsible for the administration of the Zoning By-law with respect to interpretation of permitted uses and provisions of the bylaw including setbacks, lot coverage, and parking requirements. The Township's Planning Department provides the following public services associated with the administration of the Planning Act; preparation of recommendations to Township Council regarding proposed amendments to

the Township's principal land use planning documents, the Official Plan which incorporates the general goals, objectives and policies governing land use within the Town and the Comprehensive Zoning By-law, prepares planning documents, including but not limited to official plan and zoning by-law amendments to implement Council's decisions on applications, responsible for the processing and management of development applications under the Planning Act that have been filed with the Township including draft Plans of Subdivision, prepares recommendations to the Committee of Adjustment on applications for consents and minor variances, etc. The Planning Department also administers and enforces other municipal By-laws such as the Nutrient Management Plan By-law, and Lot Grading. The Department is also responsible for confirming zoning compliance for building permits.

2024 Accomplishments

The Building Department issued a total of:

Year	Building Permits	Septic Permits	Inspections	Permit Fees
2024	198	29	756	\$127,037.76
2023	229	21	639	\$156,358.00
2022	250	39	816	\$227,856.30
2021	245	42	792	\$184,898.87
2020	236	33	649	\$172,945.00
2019	212	33	551	\$91,387.00
2018	222	15	468	\$168,351.00
2017	259	19	357	\$110,734.00
2016	293	28	N/A	\$155,168.00

The building department staff, which includes the Chief Building Official the Deputy Chief Building Official (contracted) and the Administrative Assistant (shared between Building, By-law & Planning), regularly addressed inquiries from the public, buildings concerns, building professionals including designers, architects and engineers. Department staff continue to attend professional development courses to both maintain and upgrade certifications.

The Planning Department managed a total of:

Year	Site Plan / Subdivisions	Severances / Consent	Zoning Amendments	Minor Variances	Work Orders / Certificates
2024	5	22	14	6	33
2023	0	28	20	10	60
2022	3	23	20	7	96
2021	4	18	14	16	105
2020	2	15	15	9	102
2019	2	25	14	6	98
2018	2	18	10	12	100
2017	2	20	11	15	N/A
2016	1	27	11	10	N/A

The Planning Department addressed hundreds of inquiries from the public. These inquiries are the most demanding aspect of the administrative assistant & department director for the department. All planning applications are reviewed and processed by the administrative assistant & department director which includes meetings with applicants, approvals, public notices, etc. All reports to Council are completed by the Director, along with the administrative assistant who arranges, and schedules public meetings required under the Planning Act.

The Bylaw Enforcement Department managed:

Year	Property Standards	Complaints	Dog / Kennel Licenses	Building / Planning issues
2024	12	105	1324 / 16	22
2023	10	78	1250 / 16	14
2022	7	62	1340 / 15	12

2021	4	55	1336 / 15	6
2020	3	47	1209 / 13	10
2019	7	82	1181 / 14	3
2018	13	61	172 (new dogs)	3

The By-law Enforcement Department is managed by the Director, who mostly deals with Property Standards issues. All other complaints, questions, and follow-ups such as dog issues, noise, clean yards, parking, etc. are all dealt with by the By-law Enforcement Officer. The Administrative Assistant oversees all the complaints received and followed up for processing.

2025 Goals

Like most other Townships, North Glengarry has a lot of outstanding building permits. Along with the Deputy Chief Building Official and the Administrative Assistant, staff are trying to close as many as possible, especially in public places like the hospital and local schools. Since the implementation of Performance Deposits, there are less outstanding permits. Performance Deposits income has started bringing in income at the end of 2020 as the 4-year performance deposit “extension” has now expired for all the 2017 permits, it is estimated that about a \$10,000 to \$15,000 value per year of performance deposits will be retained by the Township.

The By-law Department will focus more on implementing set fines charges for existing By-laws such as the Animal Control By-law, Livestock/Poundkeeper By-law, and the Civic Number By-law. The Animal Control By-law may be reviewed entirely to incorporate a section for prohibited animals and to review everything related to dogs as we now have a new system in place for dog catching, now done “in-house”. The AMPS By-law is now in effect and is used often for enforcement.

The Planning Departments from the six townships of Stormont Dundas & Glengarry, the Conservation Authorities and SDG Counties are in discussions for various planning matters trying to facilitate and regulate Planning Applications throughout the Counties. Most importantly, the SDG Counties have initiated a collaborative process to create a manual for streamlining the application processes at the SDG Counties. A document for Site Plans & Subdivisions is currently being prepared for all Townships to use as standard guidelines. This will facilitate the Planning, Public Works, Water Works and Fire Departments review for future potentials subdivision application, expected in North Glengarry in the near future. This document would basically be a guide for landowners to instruct them “how” should the

subdivision be designed and constructed for roads, servicing, parcel layout, drainage, grading, etc. The proposed guidelines will be presented to Council, and approval will be required prior to start using the document that would facilitate the work for both the developers and Township's staff.

Subdivisions applications are processed and approved at County level, but the Township is the "main" commenting agency as we want the subdivision to be as per Township's standards. We now have 1 subdivision that is approved and in process of being given the go-ahead for the work to start.

The Township's Zoning By-law also is due for a comprehensive review. Zoning information has been updated with the latest zoning by-law amendments and minor variances. The information is available online to the public through the SDG Counties Mapping tool. The next steps in the zoning by-law review include conducting site verifications to ensure compliance with zoning compared to actual on the ground uses. The schedules, definitions, general provisions, zone descriptions, administrative components will also be reviewed thoroughly to ensure the document is representative of the Township's.

2025 Budget Initiatives and Challenges

Challenges

A By-law for Clear Cutting was passed at the end of the year in 2021. Approximately 5-10 permits are issued per year for clear cutting. The process is very straight forward and easy to follow by the landowner. Follow-up inspections are still hard to conduct as the delay for the cutting is long, which is where enforcement is required. As of now, no official complaints or complications have arisen from the process. It appears we are close to a justified middle to satisfy the Township's goal in environmental protection, while keeping good farming practice preserved. What the department is noticing is that most of the time, the adjacent neighbors are inquiring to ensure measures are taken to know precisely where the permit line is, resulting in the owner having to do a survey, even if not required by the By-law. The fees are also quite low, which will be re-evaluated in the next few years.

Also, the Department is still facing challenges with the new updated Official Plan which was approved with modifications by the Minister of Municipal Affairs but now many properties don't have a "matching" zoning designation, creating some confusion. The United Counties have hired a firm to re-do all the 6 townships Zoning By-laws, which were done in 2024, the updated schedules and public meetings must now be scheduled in early 2025 as the next steps. This represents a challenge as the new consolidated Zoning By-law will have to reflect

those changes, especially for the properties in Rural and General Agricultural zones that saw a change in designation as per the SDG Official Plan but we are also looking as to make the most properties possible as compliant with its zoning, meaning the Township will have to drive to all the properties to ensure the zoning layer is compliant with the actual use. The Official Plan provides goals, objectives, policies, and procedures for development based on the social, economic, and environmental goals of our County. The Official Plan guides growth, infrastructure improvements, protects and enhances natural resources, and conserves cultural heritage. Official plans are implemented locally through tools like zoning by-laws, site plans, and plans of subdivision. It provides policy framework for planning decisions and development in the County and local municipalities, and it designates lands for uses like residential, employment, commercial, etc. among other things.

The Ministry of Municipal Affairs and Housing came out with a new 2024 Ontario Building Code with mostly minor changes, some major changes were also included such as the Farm Building Code that was incorporated. Those major changes include mostly things like “Two-Unit Houses” (In-law suites) rules, so some of the changes may also create some Zoning issues. Planning documents such as the Comprehensive Zoning By-law would also have to be implemented to reflect those changes. The ministry encourages secondary homes on properties, but the Township’s Zoning By-law does not reflect that goal.

Another Planning challenge is Bill 23, the More Homes Built Faster Act, 2022 received Royal Assent in 2022 and is in effect. This legislation makes significant changes to the municipal planning and development review process. Other proposals through the More Homes Built Faster: Ontario’s Housing Supply Action Plan 2022-2023 are subject to future legislation or regulations. The Township is currently seeing an increase in secondary homes in the rural area, but accessory apartments within the Urban Settlement areas such as Alexandria and Maxville do not appear to be a viable option for many as we are not seeing a lot.

The central intention of Bill 23 is to build more homes that are attainable for general population by discounting and/or exempting municipal fees and taxes for affordable, nonprofit, and purpose-built rental housing, and new homebuyers who otherwise face these significant costs. The biggest challenge with this is the fact that municipalities must find a way to be able to fund and contract road, water, sewer, and other housing enabling infrastructure and services that their growing communities need.

For example, Bill 23 proposes to exempt developers who build affordable, inclusionary zoning and select attainable housing units from paying development charges, parkland dedication fees, and community benefit charges. The bill also includes several additional changes, including reductions in costs associated with rental residential construction and changes to the method for determining development charges, amongst others. The cumulative impact of proposed changes to municipal fees and charges is significant and contrary to the widely accepted concept that growth should pay for growth.

Initiatives

Back in 2021, a Deputy Chief Building Official was hired to help with the building permit revision and inspections; the process is going very well. Since then, the Deputy Chief Building Official is now working on a contract-basis, three days a week. Since the departure of the previous Planner, changes were made to the staffing of the department. The Township also engaged the United Counties of Stormont, Dundas & Glengarry for projects that require a Professional Planner, qualified member of the Ontario Professional Planners Institute, being Peter Young.

Building permit income was slightly lower in 2024 compared to the few years where construction was really “booming”, but the actual number of permits is similar, with a similar number of inspections. The 2025 building permit income will depend largely on growth and is expected to remain constant. The village of Maxville “Water Project” and the imminent upgrades in the Alexandria sanitary system and lagoon should create some growth in Maxville and Alexandria in the next few years.

Income from planning applications such as severances, minor variances, zoning amendments, etc. is expected to remain the same or similar to the past few years. The Township has been able to keep the use of the services from the SDG Planner to a minimum while maintaining all services as per Planning Act, to a very high standard.

Expenses from the By-law Enforcement Department is also expected to remain similar. Costs were reduced in the last few years due to the new process for loose dogs. We are now evaluating the long-term plan to ensure service remain adequate on all level of bylaw enforcement. An increase in income from fines should be seen as the By-law Enforcement Officer now has the option of using the AMPS By-law, which will help greatly for smaller infractions.

Community Services

Community Services Departmental Overview

The Community Services budget contains funds to support municipal activities such as Canada Day, the Business and Community Awards Gala, Meet me on Main Street, and the Christmas activities and parades.

The budget contains contributions to various community groups in North Glengarry such as the Municipal Recreation Associations in Alexandria, Apple Hill, Dalkeith, Dunvegan, Father Gauthier (Lochiel), Glen Robertson, Glen Sandfield, Greenfield, Laggan and Maxville, the transfer of funds to the Community Grant Program, the Glengarry Pioneer Museum, the Glengarry Sports Hall of Fame, the Highland Games, and the Glengarry County Archives.

The Municipal Recreation Associations' budget contains funding for the space needs of the various Community Centers located in Apple Hill, Glen Robertson, Dunvegan, Dalkeith, and Maxville, as well as the Maxville Library and Dalkeith Plus.

The budget for the libraries contains line items for the maintenance of the Maxville Library and the former Dalkeith Library buildings. Accessibility renovations to municipal facilities are also captured under this budget.

2024 Accomplishments

The Township has contributed to several successful events and activities in 2024.

Accessibility

A new accessible concrete connector between the parking lot and the walking path was installed in Island Park. Two new extra-wide concrete pads and benches were installed at Island Park which give individuals with mobility devices the opportunity to park next to an individual seated on the bench.

Planning was completed for replacement of the arena slab at the Maxville & District Sports Complex, which will encompass a number of accessibility improvements, such as the addition of accessible ramps and viewing areas, as well as the widening of doorways.

A generator was installed at the Apple Hill Community Centre to enhance accessibility during an emergency event. The installation of a generator at the Glengarry Sports Palace which was partially covered by a grant from the Community Emergency Preparedness Fund was also completed. This generator will power spaces in the Glengarry Sports Complex and make it accessible to anyone in need during the event of an emergency.

Development of a new Community Garden on the former Water Tower lot in Alexandria was completed. This project included raised garden beds to accommodate users of all abilities and accessible picnic tables and benches.

Capital Projects by Municipal Recreation Associations

Capital projects were completed by the Municipal Recreation Associations including the installation of a new generator, lighting upgrades and building repairs.

Events

The Business & Community Gala Awards were held in September 2024 and 10 recipients were honoured during the ceremony.

The Township of North Glengarry continues to support Canada Day celebrations across its communities.

Community Grants

Community Grants have been available since 2009. In 2024, a total of 150 projects were approved for a total fund disbursement of \$407,641.21. In addition, over the last four years the Township has been tracking the value of in-kind requests. These total \$21,723.00.

2025 Goals

The Community Services Department will continue to ensure accessibility at municipally owned facilities and parks. Staff will continue to support volunteer organizations in their activities (MRAs, community groups that are successful recipients of the Community Grants Program, etc.)

2025 Budget Initiatives and Challenges

Challenges

Funding for community-based activities continues to be a challenge and there is an increase in community organizations turning to the Township for assistance either through funding or in-kind services.

Initiatives

Initiatives for the Community Service department include obtaining funding for the 2025 Canada Day activities and other activities through tourism grants. Community Services will also be seeking new funding opportunities to off-set costs associated with repairs for ageing infrastructure.

Economic Development Departmental Overview

The Economic Development Department offers business retention and expansion support to existing and prospective businesses wishing to call North Glengarry their home. Staff members include the Economic Development Officer, who is supported by the Director of Community Services.

The Economic Development Officer provides detailed and current information to companies looking to invest in the community. Local and potential businesses can take advantage of the Department's resources and expertise to source the information and contacts necessary to succeed in today's competitive global economy. This includes information on grants and services, as well as being a conduit for other agencies assistance, such as GIAG, Cornwall Business Centre, and the County of SDG Economic Development Department.

The Director of Community Services and the Economic Development Officer work closely with the Community Development Committee and the Arts, Culture and Heritage Committee (ACHC) members as well as on timely projects such as the Community Grants Program.

2024 Accomplishments

Staff continued to support the Maxville and District Chamber of Commerce by attending monthly meetings to provide information updates and to share the Chamber with new businesses to the region.

The Economic Development Officer closed four Community Improvement Plan (CIP) grants and opened three new applications. Less applications were approved in 2024; however, this was due to a reduction in budget dollars allocated towards the CIP program. The Economic Development Officer closed three Regional Incentives Program (RIP) grants and has initiated conversation with businesses to apply in 2025.

After the initial intake for the 2024 Community Grant Program, the Arts, Culture and Heritage Committee members directed staff to advertise a second intake in order to ensure all funds within the program could be utilized for 2024. All funds were used within the community.

The successful Meet me on Main Street events were expanded to some rural hamlets, receiving lots of positive feedback from these communities. A total of five events were hosted during the summer of 2024. Plans are underway to rejuvenate the events in 2025 to include more local food and beverages.

Through grant funding, the Community Services Department was able to hire a summer student for twelve weeks to assist with the promotion of local tourism, increasing business supports and relationships, planning and organizing the Meet Me on Main Street Events and attended local fairs and events to promote North Glengarry.

Staff attended the ACCFutures symposium to connect and network with community, provincial, and federal partners and discuss the grants available to businesses. Staff attended the local GIAG job fair in September, the National Job Fair in Montreal and the Best Places to Work Expo in Ottawa in October of 2024. All events allow staff to showcase North Glengarry, with representatives from HGMH, SDG Counties, and the City of Cornwall in attendance as well to assist in answering questions about opportunities for growth in the region.

Six additional heritage properties were designated to the Heritage Registry. Enhancements were made to the North Glengarry website to facilitate a more user-friendly landscape and help users easily find what they're searching for.

The Township also welcomed a new business expanding from Quebec to North Glengarry in partnership with Federal and regional Economic Development officers. Staff and the Community Development Committee met with MPP Stephane Sarrazin to gather support on provincial funding applications. Lastly, the department assisted with the development of a video to promote shopping local, resulting in a lot of positive feedback from the community.

2025 Goals

In 2025, the Economic Development Department will work on updating the Economic Development Strategic Plan, through data analysis and public consultations, and ensure it aligns with the goals of the Township and the SDG Official Plan. The department will also

initiate CIP consultations to make amendments to the program, enhance Meet me on Main Street events by incorporating activities for all ages and partner with community groups to host multiple Breakfast Connections events.

A Welcome Guide for new residents and businesses that contains important community information will be created. Staff will also contact the community groups in North Glengarry to discuss activities that could be supported through the Community Grants Program and other funding opportunities. The Community Improvement Plan and the Regional Incentives Program will be promoted to property owners in North Glengarry and staff will continue supporting activities to new and existing businesses and residents.

2025 Budget Challenges and Initiatives

Challenges

The Community Improvement Plan was reviewed and brought to Council for approval in 2024. For the last three years, attracting new projects for the CIP has proved challenging with the rise of material costs and the lack of availability of contractors.

The Regional Incentives Program (RIP) intake level in North Glengarry is slowly rising since its lowest point in 2021. Several interested businesses faced major increases in construction materials and long delays in finding contractors. In 2024, three North Glengarry property owners were successful in obtaining funding through the RIP.

Initiatives

In 2024, the Economic Development Officer role was split from the Communications Officer role, formerly known as the “Economic Development & Communications Officer.” This has enabled them to fully dedicate their work hours to economic development interests. Focal points for 2025 will be inclusive of working with the Arts, Culture and Heritage Committee, implementing the Community Improvement Plan, supporting the Township’s Corporate Strategy, as well as developing the Economic Development Strategy and Action Plan.

Recreation Department Departmental Overview

The Recreation Department oversees several facilities including Island Park, with its large community center and grounds, the Maxville and District Sports Complex (MSC) which houses an ice rink, a community hall and sports fields, the Glengarry Sports Place (GSP) which also houses an ice rink, a community hall and sports fields, and the Tim Horton's Dome with its multi-sports surface.

2024 Accomplishments

Pool at Hôpital Glengarry Memorial Hospital

In 2024, the Township of North Glengarry, in partnership with the Hôpital Glengarry Memorial Hospital, reopened the pool, which had been closed to the public since 2019. In addition to offering various public swimming sessions, the Township also offers a vast variety of programs and classes, including Parents and Tots, Toddlers and Swimmer 1-3 level

swimming lessons and Aquafit classes. The pool has been well-received by its users and a welcomed addition to the Township's program offerings.

Island Park

Island Park saw a 1.9% increase in hours booked at the Sandfield Centre from 2023 to 2024. During the spring of 2024, the Splash Pad underwent extensive repairs to replace valves and solenoids to assist with expanding its life expectancy.

Tim Hortons Dome

The Tim Horton's Dome continues to host a wide array of programming, such as volleyball, a running program, and soccer clinics. The programs are well attended and enjoyed by all users. Repairs were completed in 2024 to cracks on the surface of the tennis court.

Maxville & District Sports Complex

Painting enhancements to the exterior of the building were completed and a purchase of new ice resurfer was approved by Council to be delivered in early 2025. Engineering plans were completed to assess slab and dasher board replacement. New Yoga programming was launched at the arena with good participation.

As part of a project led by Public Works, the MSC parking lot was resurfaced with painted lines and had accessible parking spaces added, along with a new walkway leading into the arena.

Glengarry Sports Palace

Installation of new protective netting on the west end of the arena was completed to replace the existing deteriorating net and help improve protection of the scoreboard and infrastructure. With the financial assistance of a grant, the installation of a generator to support the use of GSP as a shelter during extended power outages was completed in the summer of 2024.

The Michel Depratto Hall saw a 16% increase in hours booked from 2023 to 2024.

2025 Goals

One goal for 2025 is to finalize the Recreation Action Plan to be presented and approved by Council by the end of quarter one. Staff will continue with their training programs at all levels of recreation to ensure that staff are compliant with regulatory requirements. Staff will seek new programming opportunities in alignment with community needs as well as opportunities to reduce overtime through an evaluation of the staffing and scheduling models for the recreation team.

The Department will continue its beautification work on its parks with specific attention to Island Park and the development of Mill Square (through the Alexandria Main Street Project). The Township was successful in obtaining a three-year permit for its Geese Management Program (2024 – 2025) and will continue with the oiling of geese eggs to control the population.

2025 Budget Challenges and Initiatives

Challenges

Repairs to buildings and equipment increase as they age and several of the Township's recreation facilities are approaching the half-century mark. The Building Condition Assessment Plan has identified that significant funding will be required to upkeep or retrofit the buildings that are reaching the end of their lifecycles. As always, several projects are reliant on provincial or federal funding.

Initiatives

Staff will work on the implementation of the community garden at the north end of Alexandria. At the Tim Hortons Dome, there will be the purchase of new pickleball equipment and a planned increase in Dome usage through new programming and the promotion of activities

For the Glengarry Sports Palace, Staff will continue to seek out grants for upgrades to building and refurbishment of the bathrooms in the Michel Depratto Hall.

Island Park will see landscaping enhancements and investment in new durable picnic tables to be used for Meet Me on Main Street events, in addition to use at Island Park when not in use for community events. Staff will seek out grant opportunities to support the tennis court revitalization.

At the Maxville and District Sports Complex there are plans for a new main street sign, in collaboration with the KAS, Glengarry Sports Hall of Fame and the Maxville Lions Club.

Additionally, as the programming at the HGMH pool was new to the Township in 2024, the next year presents an opportunity to analyze usage and programming to determine any efficiencies or lessons learned from the first year of operating.

Fire

Departmental Overview

The Fire Services Department continues to build a framework for a fire protection delivery model that promotes an integrated and balanced approach by utilizing the three lines of defense.

- Public Fire Safety
- Fire Safety Standards
- Emergency Response

The department consists of 3 stations located in Alexandria, Apple Hill, and Maxville largely supported by volunteer firefighters. We continue to strive to meet all goals and implement regulations from the Office of the Fire Marshal while providing recommendations to ensure the Township has an effective and efficient Fire Department.

2024 Accomplishments

Training Program

- In July 2022 the province enacted a new Regulation for Firefighter Certification. This new certification placed a large responsibility on municipalities and their fire services. As a department we were prepared for the new mandated requirement with the investment into our training program and facility.
- Through 2024 the department hired 10 new recruits where they were enrolled into NFPA Firefighter I program.
- 18 firefighters were fully certified completing Firefighter II and Hazmat Operations.
- In 2024 our training facility seen an increase in rentals to our neighboring fire departments.
- Members were certified in NFPA 1031 Fire Inspector I, NFPA 1035 Fire Life Safety Educator, Public Information Officer

Training Facility

The North Glengarry Fire Department Training Facility officially opened in 2021 where it operates in a centralized location in our Township under a lease agreement. Located at 18611 Diversion Rd, Apple Hill, the Training Facility is a unique fire training facility designed to give realistic training to firefighters.

In 2024, the training facility had an increase in rentals to our neighboring fire departments. The facility has proven to assist department in providing the tools to prepare first responders, and external organizations for emergency response, specialized job skills and incident management techniques.

The facility has provided the North Glengarry Fire Department with the tools to meet the regulated training requirements established by the Ontario Fire Marshals Office. The live fire props within the training center are designed to simulate several key types of fires. The propane live fire training props include a vehicle, assorted gas containment failures, a residential room and content fires all of which provide for skills development. The training ranges from pump operations to incident command, forcible entry, search and rescue, ventilation and fire attack to be practiced in a practical and safe environment. Combining all of the skills in a sequential, comprehensive manner is the key to be able to function efficiently and skillfully on a fire scene.

2025 Goals

The Fire Department will continue to modernize and strive to meet all provincial and national standards. Members will continue to be trained to NFPA standards at the new training facility, while continuing to strive to ensure the members are equipped with the proper health and safety equipment and procedures.

Staff will continue to promote North Glengarry's training facility to other Fire Departments in an effort to increase revenue within our department.

The fire prevention and inspection program will continue to provide fire safety and education programs throughout the township through initiatives guided by the Ontario Fire Marshal office.

2025 Budget Initiatives and Challenges

Challenges

The department has seen a decrease in available firefighters during daytime hours. This is due in large part to firefighter employment being outside of the township. Along with the increased requirements of training certification, incident response all which has placed a burden on our firefighters. In 2025 the department will be exploring and implementing changes to our response abilities, maintenance, and inspections. The department needs to continue to strive to ensure all the maintenance, inspections and training requirements are met.

Since the enactment of the Regulation for Firefighter Certification, this new certification has placed a large responsibility on municipalities and their fire services. In 2025, the Fire

Department will continue to focus on training and ensuring North Glengarry's firefighters are certified as per the new regulation requirements. This places pressure on the operating training budget, to provide internal and external courses.

The fire stations require on-going repair and maintenance, in effort to meet the health and safety requirements.

In 2024, the vehicle maintenance budget saw an increase in cost as staff continue to ensure the fleet remains in good condition, to meet MTO safety requirements, and NFPA standards. A proper maintenance program was implemented to ensure the fleet remains in overall good condition, to meet NFPA standards for the life expectancy and maintenance of our front-line emergency vehicles. The state of the fleet is key to the service level provided for the Township, and the ability of the department to function effectively.

Initiatives

In 2025, the Fire Department will continue working on training certifications. Staff will also be revising and updating Standard Operating Procedures to ensure compliance and optimal performance. Station renovations to meet safety standards will continue.

Corporate Fleet

Departmental Overview

The following schedule provides a 10-year capital projection of fleet needs. The relevance of the 10-year plan is to provide Council the necessary information on a long-term basis for fleet. Ensuring fleet are in good working order means that they are available to be utilized to deliver services to residents. Investment in fleet continues to be a challenge and Staff remains committed to finding efficiencies and savings where possible.

The 2025 fleet budget includes a brush truck for the Fire Department and a ¾ ton truck for the Roads Department.

The machinery and equipment budget has also been included on an overall corporate level. 2025 purchases include a lawn mower, 2 trimmers, a bush hog, and various attachments and maintenance on existing equipment. These purchases will be funded through the tax base. An ice resurfacer was also pre-approved for the 2025 budget and will be financed through long term debt.

The long-term debt finance charges for 2025 have been included in the operating budget and are shown on the schedule below.

2025 Corporate Fleet Budget

10 Year Capital Budget - 2025

Department: Fleet

Department	Project Description	2024	2025	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035

Public Works

Departmental Overview

The Public Works Department is responsible for managing and maintaining essential infrastructure and public services within the Township of North Glengarry. Key elements include roads, bridges, sidewalks, snow management, storm sewers, safety devices and street lighting. The Public Works Department also encompasses waste management, drainage, water and wastewater management.

The Waterworks Department is a subset of the Public Works Department and is responsible for the management of water distribution, water treatment, wastewater collection and wastewater treatment within the Township. The Township of North Glengarry owns and operates water and wastewater systems in Alexandria, Maxville and Glen Robertson.

As of December 31, 2024, The R.A.R.E. recycling facility located in Alexandria has been closed due to changes to the recycling process. The province of Ontario has moved to a producer-responsible system. This means that the Township of North Glengarry will no longer be responsible for the collection of recyclable materials. These services will continue to be offered but will be funded by producers. The existing building will be transitioned into the Public Works Garage. This site will become the new Alexandria Garage as well as the new site for the Waterworks Department.

2024 Accomplishments

In 2024, North Glengarry's Public Works Department achieved significant progress in improving road infrastructure, water systems, and landfill management.

Roads Department

Multiple culverts were replaced on key roads, including Nixon Boundary Road, Loch Garry Road, Angel Road, Service Road, and three sections of Kenyon Concession 5 Road. A more efficient gravel resurfacing program was implemented, leading to cost savings and a reduced gravel budget for 2025. Extensive brushing and ditching were performed on Creek Road, two sections of Kenyon Concession 5 Road, and Valence Road to improve road conditions. Additionally, significant shouldering work was completed to strengthen road shoulders. The Weed Spraying Program completed through the counties this year need to be revisited in 2025 as the weed spraying as a much larger amount was sprayed than had been agreed with the County. Possibilities include skipping a year to bring the budget back into line or continuing with the program as is. The Road Foundation Program were successfully performed on Marcoux Road, Dornie Road, and portions of McCormick Road, with the major hill on McCormick Road regraded for improved safety. Infrastructure upgrades included resurfacing and grading the Maxville municipal parking lot and replacing the Maxville Arena

entrance sidewalk. Extensive crack sealing operations were conducted on multiple roads, including County Road 24, East Boundary Road, Skye Road, Park Street, Lochiel Street West, and within the town of Maxville.

Digital speed radar signs were deployed to enhance traffic monitoring, and ongoing traffic counts provided valuable data for planning. Sidewalk replacement efforts focused on Alexandria, improving accessibility, while inspections were conducted to identify future needs. Bridge repairs were completed on Bishop Street, and Dominion Street saw a full bridge replacement. Stormwater condition assessments in Alexandria reached 35% completion, contributing to long-term water management strategies.

Waterworks Department

Major sections of wastewater lines connecting to the main station were successfully relined, improving system reliability. Dominion Street's water main replacement was completed at a competitive cost, and valves and hydrants were replaced on Derby Street and Dominion Street.

Meter replacements targeted hard-to-access locations, and critical process equipment upgrades were finalized. Studies for inflow and infiltration (I&I) in Alexandria and Maxville progressed well, with the Alexandria study completed and the Maxville I&I study 90% finished. The Maxville lagoon capacity enhancement study reached 70%, awaiting spring data, while the Alexandria fill station was completed to support water access.

Landfill

The landfill saw major progress with the procurement of significant cover material through partnerships, reducing the \$700,000 liability for the closed Alexandria Landfill.

2025 Budget Initiatives and Challenges

Low-Class Bituminous Roads Build a Foundation Program

The Low-Class Bituminous (LCB) Roads Foundation Program aims to improve 69 km of LCB roads by addressing substandard sections with a short-term, cost-effective strategy. The 2021 study rated 20.37 km as poor (2 or lower), while only 29.51 km scored above 6. Full upgrades to High-Class Bituminous (HCB) standards are unaffordable within current budgets. Instead, the plan involves applying a scratch coat and a 25mm asphalt layer to the worst sections over three years to improve durability and reduce pothole maintenance.

To ensure long-term success, LCB roads will be standardized at a 6.5m width, addressing notable issues like Concession 1's width. Simultaneously, the 56.24 km HCB inventory will receive minimal maintenance (\$100,000 annually for 2024-2026) until funds allow larger-scale rehabilitation by 2039, targeting \$510,000 per year.

Urban areas, including Glen Robertson, Alexandria, and Maxville, will have a \$170,000 annual budget for resurfacing roads impacted by water infrastructure work and township-owned parking lots.

The budgeting strategy proposes Council approve a flexible, priority-based approach, allowing Public Works to optimize spending and maximize roadwork completed each year based on cost and funding variability. This plan focuses on balancing short-term needs with long-term road network sustainability while improving resident satisfaction.

Program Type	Urban Roads	LCB Foundations	HCB Roads	Total Budget
2024	\$ 170,000.00	\$ 1,030,000.00	\$ 100,000.00	\$ 1,300,000.00
2025	\$ 173,400.00	\$ 1,050,600.00	\$ 102,000.00	\$ 1,326,000.00
2026	\$ 176,868.00	\$ 1,071,612.00	\$ 104,040.00	\$ 1,352,520.00
2027	\$ 180,405.36	\$ 510,000.00	\$ 510,000.00	\$ 1,200,405.36
2028	\$ 184,013.47	\$ 520,200.00	\$ 520,200.00	\$ 1,224,413.47
2029	\$ 187,693.74	\$ 530,604.00	\$ 530,604.00	\$ 1,248,901.74
2030	\$ 191,447.61	\$ 541,216.08	\$ 541,216.08	\$ 1,273,879.77
2031	\$ 195,276.56	\$ 552,040.40	\$ 552,040.40	\$ 1,299,357.37
2032	\$ 199,182.09	\$ 563,081.21	\$ 563,081.21	\$ 1,325,344.51
2033	\$ 203,165.74	-	\$ 574,342.83	\$ 777,508.57

Total budget calibrated for a 2% increase year over year

Roads

The 2025 Public Works projects in North Glengarry prioritize significant upgrades to roads, infrastructure, and water systems to improve safety, efficiency, and long-term sustainability.

The highest priority upgrades focus on converting Low-Class Bituminous (LCB) roads to High-Class Bituminous (HCB) standards. These projects include completing the remaining sections of McCormick Road, upgrading Concession 4 between County Road 20 and Dornie Road, and improving William Street and West Boundary Road in Alexandria. Municipal parking lot resurfacing and grading in Alexandria will also take place, incorporating an EV charger and a pedestrian crossing installation on Main Street to enhance accessibility. Engineering work will begin for planned 2026 road projects, and culverts on priority roads will be replaced in preparation for paving. Refurbishments are planned for Public Works garages to extend their asset life, and the Rolland Massie railway crossing will undergo grading to reduce ice buildup, supported by an RSIP grant. Centreline marking is also a priority in 2025 with the intent to add edge marking to increase the level of safety on our roads and the durability of our road edges as edge markings tend to bring the traffic towards the centre and away from the more fragile edges.

Additional road-related improvements include replacing 625 linear meters of Alexandria's worst sidewalk sections and developing a stormwater management plan. Efficient gravel replacement will continue, alongside the installation of pedestrian crossings, specifically

between the Glengarry Sports Palace and Glengarry District High School, and at Terre des Jeunes on Lochiel Street. Stormwater infrastructure in Alexandria will be assessed, targeting 70% completion to address future drainage needs.

Waterworks

Significant projects are set to strengthen water delivery and quality. Equipment will be procured and installed to identify and mitigate water loss, and critical valve and hydrant replacements will occur. Completion of the Water Masterplan and the final stages of the water meter replacement program are anticipated. Process equipment upgrades are planned for the water treatment plant, including extending the building at the Glen Robertson Water Treatment Plant (GR WTP). Sewer relining will be performed to maintain assets and accommodate development, while a Maxville capacity increase study will be finalized. Pumping stations will be upgraded to meet modern standards, and the ongoing sludge removal from lagoons will continue. Additionally, redevelopment designs for Main Street and County Road 10 will be completed, and a water tower redundancy investigation will proceed, alongside scheduled maintenance inspections.

The installation of the bulk water station will make the purchase of water for contractor much easier without having to coordinate with an operator and help us keep track of who is using the Townships water for water loss purposes. We will bring a report in early 2025 to adjust the bulk water rates to bring them in line with the region and provide a payback period for the bulk water station.

New Public Works Facility

With the closure of the recycling plant in 2024 there is an opportunity to consolidate many township operations to one building to save money on overhead in the long-term and better coordinate different township functions. The plan is to refurbish the facility and adapt it to Township operations by consolidating the Alexandria roads operators from the facility on Tobin Street and the Waterworks operators currently using a leased facility to the same building. We also plan to expand storage capabilities for the recreation department and community groups along with constructing a small facility on site for housing lost dogs safely and in a comfortable manner. Along with the advantages and long-term cost savings that will come from consolidating operations we will also retain the ability to perform hazardous waste day events.

Department: Water

Project Description	2024	2025	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035
Waterline relining (100 m - Mill Pond)												
Meter Stations (Flow meter)	\$100,000											
Lochiel St. Water Main												
Replace Water main Tobin St												
Valve and hydrant replacement	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000		
Hydraulic modeling												
Water meter replacement program	\$10,000	\$10,000										
Atuo Flushers (x2)												
Meter Software Upgrade												
Alexandria intake dyke												
Alx WTP VFD Replacement												
Process equipment upgrades	\$56,000	\$56,000										
Electronic Logbook Software												
Glen Robertson SCADA upgrade												
GR WTP building extension	\$95,000	\$95,000										
UV Units												
Wall Mounted CL2 analyzer												
Clean Glen Robertson well casing												
Watermain refurbishment program	\$225,000	\$30,000										
North Glengarry Water Master Plan	\$10,000	\$10,000										
Filling Station	\$80,000											
Locator unit	\$5,000											
Main Street redevelopment project	\$70,000	\$140,000										
Water Tower ROV Maintenance		\$6,000										
Water Tower Redundancy Design		\$26,000										
SCADA Computer Control Upgrades		\$30,000										
Future spending is based on an average of the last 5 years plus 3% per year. Detailed projects will be budgeted based on the needs of the system.	\$0	\$0	\$340,000	\$350,200	\$360,706	\$371,527	\$382,673	\$394,153	\$405,978	\$418,157
